	Email: alexkayongo@gmail.com
Guest speaker	Dr Gerald Mutungi, Commissioner, NCD screening and prevention, Uganda Ministry of Health
Other invited delegates	Nakaseke District representatives i.e District health officer (DHO), Chief Administrative officer (CAO), Biostatistician, District Security Officer, Community health officer, District speaker and counsellor, Nakaseke and Semuto Medical superintendents and administrators.
General objective of the workshop	<ol style="list-style-type: none"> 1. To increase local visibility of ACCESS-EKFS NCD Center of Excellence program at community, district and national level. 2. To disseminate major findings about ACCESS-EKFS rural NCD program in Nakaseke district. 3. To involve primary stake holders in formulating a way forward on what works in the community geared towards a sustainable NCD screening program
General description of the program format	We had plenary sessions as well as Question& Answer session We finalized the program with a site tour at ACCESS life care
Description of scientific/ educational/community impact of the program	<p>The workshop drew over 50 participants with diverse backgrounds and the sessions covered community based screening and management aspects in the field of hypertension, diabetes mellitus and chronic kidney disease.</p> <p>We had local experts sharing their experience in patient management as well as regional NCD integration.</p> <p>We also had patients sharing their experiences</p> <p>This was the first local NCD dissemination workshop organized in Nakaseke district.</p>
Evaluation of the Meeting by the Delegates	Delegates were extremely happy about the event and would be happy to attend the workshop again.

Report: ACCESS EKFS-NCD Dissemination Workshop

In his speech, Dr. Gerald muting thanked EKFS program for the wonderful work done and that this is a great achievement and would inform policy on managing NCDs at community level.

Also the DHO thanked the CHWs for the wonderful work delivered to the district communities.
